Project Name	Cosmetic Insights : Navigating Cosmetics Trends and Consumer Insights
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Purpose / Vision			
1. CUSTOMER SEGMENT(S) CS Who is your customer? i.e. working parents of 0-5 y.o. kids Category managers and pricing analysts in budget-friendly or drugstore cosmetic brands Define CS, fit into CC	6. CUSTOMER CONSTRAINTS CC What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices. Limited customer spending power, regional distribution limits, offline-heavy sales, lack of e-commerce analytics, tight margins	5. AVAILABLE SOLUTIONS AS Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking Excel-based sales reports and Distributor surveys Explore AS, differentiate	
2. JOBS-TO-BE-DONE / PROBLEMS J&P Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides. Identify fast-moving budget cosmetic products in low-income markets and Align pricing and bundling for local preferences Focus on J&P, tap into BE, understand RC	9. PROBLEM ROOT CAUSE RC What is the real reason that this problem exists? What is the back story behind the need to do this job? i.e. customers have to do it because of the change in regulations. Sales data isn't segmented by price tier or location and Manual inventory analysis leads to missed opportunities	7. BEHAVIOUR BE What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer; calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace) Relies on distributor feedback and Reviews outdated sales summaries and guesses trends based on regional assumptions Focus on J&P, tap into BE, understand RC	
3. TRIGGERS TR What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news. Competitor launches new low-cost line Identify strong TR & EM	10. YOUR SOLUTION SL If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour. A Tableau dashboard that maps budget product sales by region and price bracket and Highlights demand patterns and top-selling SKUs		
4. EMOTIONS: BEFORE / AFTER EM Before: Worried about stockouts or waste, unsure which product to prioritize After: Confident in which SKUs are moving, takes data-backed pricing decisions, hits inventory KPIs	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE What kind of actions do customers take online? Extract online channels from #7 i.e. directly related: find the right solar panel installer; calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace) POS integration tools, Tableau dashboard portal, CRM reports, WhatsApp-based stock updates 8.2 OFFLINE What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development. Distributor calls, store manager feedback, inventory meetings, warehouse inventory logs Extract online & offline CH of BE
